

Mobile Crisis

Crisis Phone Line

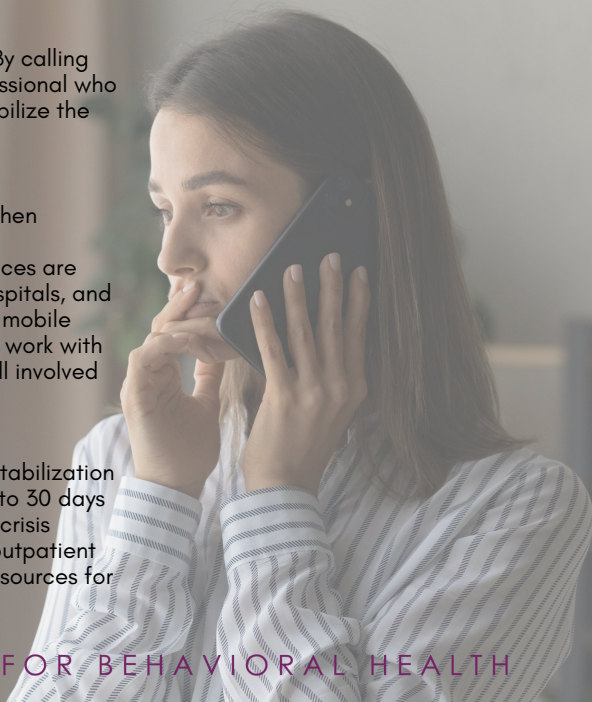

Seasons offers a 24/7 Crisis Phone Line. By calling 844-345-4569, callers speak with a professional who will provide support, screen for safety, stabilize the crisis, and provide appropriate referrals.

Mobile Crisis Services

The Mobile Crisis team will be deployed when necessary to provide a face-to-face crisis screening/intervention. Mobile Crisis Services are available to schools, law enforcement, hospitals, and provider clinics. If an individual is needing mobile response in another location, our staff will work with law enforcement to assure the safety of all involved using a co-responder model.

Care Coordination

The Mobile Crisis team provides ongoing stabilization services through care coordination for up to 30 days for individuals that have accessed mobile crisis services. The team assists with obtaining outpatient mental health care or link to community resources for further assessment.

Mobile Crisis Services Are Available In:
